1

Medical Documentation Form for WIC Special Formulas and Approved WIC Foods

Patient's First & Last Name: _____ Date of Birth (MM/DD/YY): ____/____/____

Parent/Caregiver's First & Last Name: _____

1. Qualifying Medical Condition(s)

List the diagnosed medical condition(s) **and** the ICD-9 or ICD-10 code(s) justifying the formula/medical food prescription.

Qualifying diagnosed medical condition(s): _____

and applicable ICD-9 or ICD-10 code(s): _____

Note: WIC approval and provision of prescription is based on Georgia's WIC policies and procedures.

2. Special Formula Requested

Name of formula/medical food requested: _____

Prescribed amount per day: _____ oz/day* Form: Powder Concentrate Ready-to-feed†

Special instructions/comments: _____

Planned length of use: _____ months WIC prescription renewal is required periodically (every 1-6 months).

*Prescribed amount per day is based on reconstituted fluid ounces of the formula product at standard dilution. Instructions on reverse.

†The use of ready-to-feed products requires additional justification for WIC unless ready-to-feed is the only available product form.

3. WIC Foods

Please complete section A or section B below. The patient may receive the supplemental foods – appropriate to his or her WIC participant category – listed below in addition to the approved special formula.

A. **No Supplemental Food Restrictions: _____ (provider initials)**

If there are **no** prescribed food restrictions, please initial the "No Supplemental Food Restrictions" line above.

B. If there are prescribed food restrictions due to the patient's medical condition(s):

In the "Contraindicated Supplemental Foods" column, please check () any supplemental foods that **cannot** be issued due to the patient's medical condition(s). Please describe any other prescribed restrictions in the "Comments."

WIC Category	Contraindicated Supplemental Foods – Check The Foods That Should NOT Be Issued To Client			
Infants (6-11 mos.)	Infant Cereal <input type="checkbox"/>	Baby Food Fruits and Vegetables <input type="checkbox"/>		
Children (≥12 mos.) & Women	Milk <input type="checkbox"/>	Beans / Peas <input type="checkbox"/>	Vegetables / Fruits <input type="checkbox"/>	Juice <input type="checkbox"/>
	Cheese <input type="checkbox"/>	Peanut Butter <input type="checkbox"/>	Whole Grains <input type="checkbox"/>	Canned Fish* <input type="checkbox"/>
	Cereal <input type="checkbox"/>	Eggs <input type="checkbox"/>	(wheat bread, brown rice, or whole grain tortillas)	
Comments:				

* Only for exclusively breastfeeding women, women pregnant with multiple fetuses, and women mostly breastfeeding multiple infants.

4. Health Care Provider Information (Please Complete All Boxes.)

Provider's Name (Please Print):	*Title:
Provider's Signature/Credentials:	Date: / /

Original signature required. No stamped signatures or proxy signatures (e.g., by nursing staff) will be accepted by Georgia's WIC.

***Note:** Georgia's WIC only accepts prescriptions authorized and signed by the following providers:

- Physicians (MD, DO)
- Physician Assistants (PA, PA-C)
- Nurse Practitioners (e.g., NP, APRN, CPNP, CNP, PNP, CNNP)

Medical Office/Clinic Name:
 Street Address:
 City:
 Zip Code:
 Phone Number:
 Fax Number:

Instructions & Resources for Use of This Form:

Use this form to request special formulas and/or medical foods for patients with qualifying medical conditions. Please refer to **Georgia's WIC Form #2 (Referral Form & Medical Documentation For Special Food Substitutions)** for children/women with food intolerances (e.g., lactose intolerance) or food allergies (e.g., milk protein allergy) that can be managed with food substitutions (e.g., soy milk, tofu, etc.).

If you have questions or need additional clarification when completing this form, please contact the local WIC agency where your patient is receiving WIC benefits. A directory of Georgia's WIC clinics is available at <http://www.wic.ga.gov/> under the "WIC Site Listing" link. Information about formulas and medical foods approved for issuance by Georgia's WIC is located at <http://www.wic.ga.gov/> under the "Health Care Provider Information" link.

Local agency WIC staff will review requests for special formulas and medical foods according to federal regulations and Georgia's WIC policies and procedures. Diagnosis of a serious medical condition (e.g., Failure To Thrive) must be consistent with the patient's anthropometric data. Additional clarification or documentation may be necessary to complete the approval process. Denial of a request does not imply that Georgia's WIC staff question the health care provider's clinical judgment. However, federal policy limits the issuance of special formulas and medical foods to cases of serious diagnosed medical conditions.

Provision of special formulas and medical foods by Georgia's WIC will be for intervals of one (1) to six (6) months. At a minimum, a new medical authorization is required at each renewal or formula change.

Definitions, Examples and Exclusions:

Qualifying Medical Conditions: life-threatening disorders, diseases and medical conditions that impair the ingestion, digestion, absorption or utilization of nutrients that could adversely affect the participant's nutritional status. Examples include, but are not limited to:

- Low birth weight, premature birth, and failure to thrive (FTT)
- Metabolic disorders, gastrointestinal disorders, malabsorption syndromes, and immune system disorders
- Severe food allergies requiring use of an elemental formula

Non-Qualifying / Excluded Conditions:

- Solely for the purpose of enhancing nutrient intake or managing body weight without an underlying condition
- Non-specific formula intolerance or food intolerance
- Participant preference, parental preference, or food dislikes

Medical Diagnoses:

- Non-specific symptoms or diagnoses are insufficient for the purposes of Georgia's WIC prescriptions (e.g., colic, milk allergy, multiple food allergies, spitting up, milk/formula intolerance, feeding problems, feeding difficulties, picky eater, poor appetite, inadequate intake, constipation, cramps, digestive disturbances, fussiness and gas).
- The following diagnoses require an **underlying medical condition** be present and documented: "underweight," "feeding disorder," "inadequate/poor weight gain," and "inadequate/poor growth." Georgia's WIC cannot accept these diagnoses alone – a more specific, primary medical condition **must** be present and listed among the diagnoses (e.g., Cerebral Palsy, Failure To Thrive, Oral-Motor Feeding Disorder, Prematurity, Dysphagia, etc.).
- Georgia's WIC may require additional documentation for prescription approval if diagnoses are missing, incomplete, non-specific, inconsistent with existing anthropometric data, or if clarification is needed.

Prescribed Formula Quantity:

- Infants (<12 months of age) enrolled in Georgia's WIC will receive the **full maximum quantity** of formula allowed per month regardless of the amount of formula prescribed per day under Section #2 of the form. The maximum quantity of formula allowed is based on age, feeding method (*Mostly Breastfed* or *Fully Formula Fed*), product form (concentrate, ready-to-feed, powder), and product package size. (**Note:** *Exclusively Breastfed* infants do not receive any formula from WIC.)
- Children and women enrolled in Georgia's WIC will receive the quantity of formula or medical food prescribed under Section #2, up to the maximum quantity allowed by federal regulations and Georgia's WIC policy.
- The amount of prescribed formula or medical food provided by WIC is subject to the maximum allowable quantities determined by federal regulations and outlined in Georgia's WIC policies. WIC is a supplemental program. Patients are responsible for acquiring any additional prescribed quantities of formulas or medical foods that exceed what is eligible for provision by WIC.

Approximate WIC Maximum DAILY Allowances of Reconstituted Formula for Infants*

Feeding Method:	Age 0 – 1 Month	Age 1 – 3 Months	Age 0 – 3 Months	Age 4 – 5 Months	Age 6 – 11 Months
Mostly Breastfed	3.5 fluid oz/day	12.0 fluid oz/day		14.5 fluid oz/day	10.5 fluid oz/day
Fully Formula Fed			27.0 fluid oz/day	29.5 fluid oz/day	21.0 fluid oz/day

*Fluid ounces based on reconstituted liquid concentrate formula. Amounts differ for ready-to-feed and reconstituted powder formulas. Refer to the federal regulations at www.fns.usda.gov/wic.

Use of Ready-To-Feed Products: Ready-to-feed products may be issued in cases where there is an unsanitary/restricted water supply, poor refrigeration, when the participant's caregiver has difficulty in correctly diluting concentrated or powdered formula, or when ready-to-feed is the only available product form. In a limited number of situations, ready-to-feed products (classified by USDA as "exempt infant formulas" or "medical foods") also may be issued to clients with qualifying medical conditions if a ready-to-feed product (a) better accommodates the participant's medical condition or (b) improves the participant's compliance in consuming the prescribed product. The client's local WIC clinic can provide additional guidance concerning which products qualify for issuance in the ready-to-feed form.

We appreciate your cooperation and partnership in serving Georgia's WIC population.
